QUALITY ASSURED 

Recycled Wood Plastic Composite (WPC) Bollards

Ideal for vehicle and pedestrian management in parks and open spaces.

APR manufacture a wide range of **easy to install** WPC Bollards in various styles and sizes to meet your specification. **Made from locally sourced durable recycled materials** (kerbside plastic and post-industrial wood waste), WPC offers a **sustainable timber alternative** that not only looks great, also **lasts longer** and is safe for people and the environment.

- ✓ Weather resistant - won't rot, rust or crack
- ✓ No chemicals, sharp edges or splinters
- ✓ Low maintenance - no painting, oiling or staining
- ✓ Termite & vandal resistant

Bollards - Square, Rectangle, Round

If your project requires a specific style or function APR offers inhouse design services including CNC milling and routing, lettering, recessed reflectors and signs, drilled chain, pipe and wire holes.
